About Toltec

Toltec supplies an array of related mechanical components to customers throughout North America. Toltec's off-shore production facilities are ISO 9001 certified. From ground-up design to reverse engineering to small modifications, Toltec's engineering stands at the ready to serve. In addition, Toltec provides inventory management and warehousing to meet customer production requirements. Founded in 1990, Toltec continues to grow by offering an ever-wider world of products backed by stellar service. Toltec operates on a customer first policy. We look forward to serving you.

Conveyor chains

Toltec pintle and engineering class conveyor chains are designed and manufactured to withstand the demanding requirements of high-load power transmission use.

To offer the best combination of strength, wear, and resistance to shock load, our chains also feature:

- Straight or offset sidebar construction.
- Case or thru hardened pins.
- Heavy interference fits.
- Full round pin and bushing design
- Quality heat-treated carbon and alloy steel.

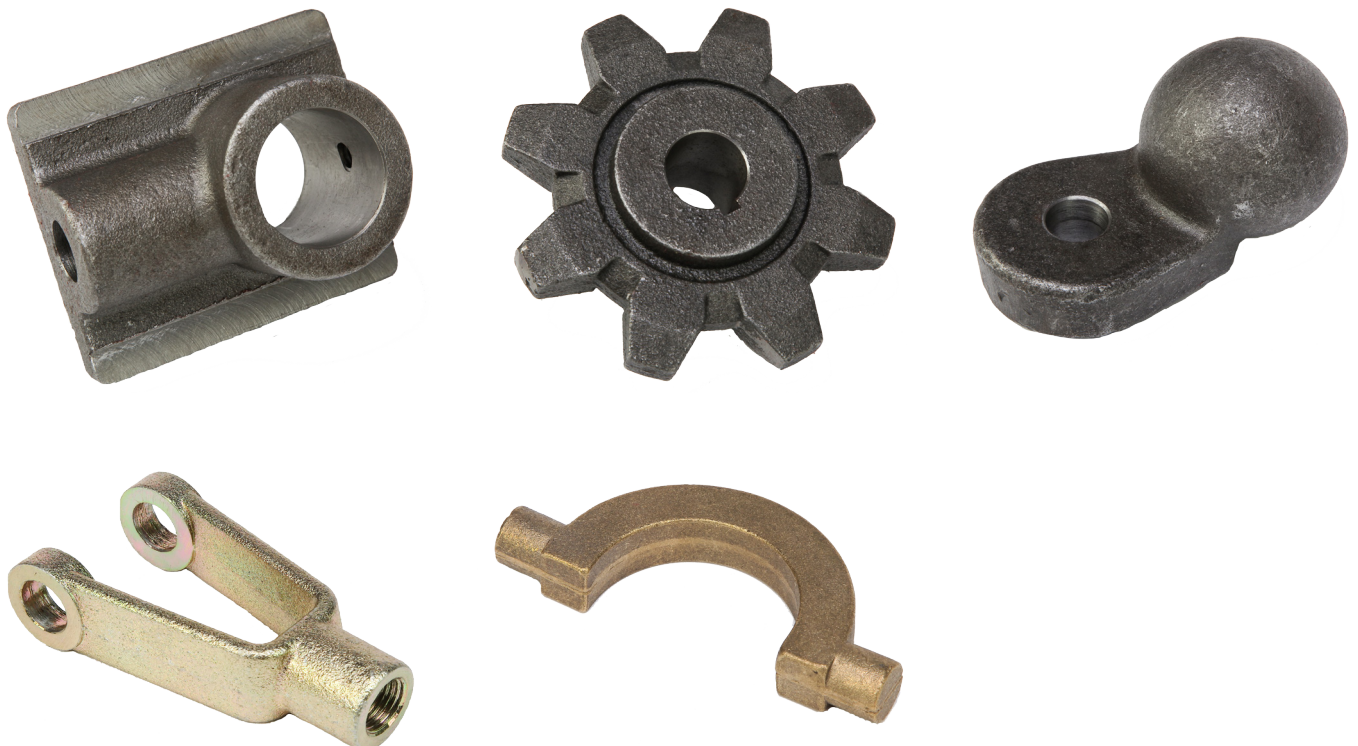

Cast chain

SAE 4130 and 4140 material. Largest size 154 pounds and 16 by 24 inches. Pintle, Mill, Drag, Carrier and Transfer.

Sand casting for grey cast-iron and ductile cast-iron: weight up to 44 pounds. Investment casting (lost wax) for carbon steel and steel alloy: weight up to 110 pounds.

Toltec machining capabilities:

- OEM precision parts
- Lengths up to 5.6 feet
- Diameters up to 20 inches
- Tolerances to .0002 inches
- Threading
- Grinding
- Manual lathes
- CNC

We are familiar working with stainless steel, magnesium, tool steels, cold roll steel, aluminum, aluminum bronze, cast irons, brass, ductile iron and steel castings.
